

You are now chatting with : Expert

Expert: Hello Joe :)

joe: Hi

joe: Can you tell me a little about your company?

Expert: Certainly...

Expert: We are an SEO service provider company that offers complete SEO solutions... Search Engine Optimization...

Expert: We do online marketing for websites..

Expert: If you have a website and that needs to be optimized and want traffic for it...

Expert: then we take care of it..

Expert: We are a very new company in the market.. However, people workin for us and I myself are experienced..

joe: and how do you guys market websites?

Expert: for more than a year in this industry..

Expert: We perform Directory Submissions... Social Bookmarking and many other strategies...

Expert: there are close to 25 different strategies...

Expert: Joe.. You with me?

joe: yes, had to step away for a second

Expert: No problem...

Expert: So... Do you own a website?

joe: i'm reading through your site while we're chatting. It mentions you, well i'm assuming you are "prasen", that you worked for partypoker?

Expert: Yes... I did...

Expert: But no more with them...

joe: are you familiar with jason duke or jay young?

Expert: No I am not..

Expert: I was into Customer Service..

Expert: in India..

joe: two guys i met at a conference from partypoker.

joe: so is India where you guys are located?

Expert: Oh okay..

Expert: Thats correct...

joe: how do you guys handle link building? obviously this has been a hot topic lately and we are very particular about this phase of our online marketing.

Expert: We have set strategies for building links..

Expert: It depends on the kind of link building you are lookin for... Is it one way or reciprocal?

Expert: coz the strategies differ for each..

joe: from what we've read, the bigger name ad networks seem to have been targeted by google and we're wondering if you use these type of methods with link building?

Expert: That is just one of the methods..

Expert: We use complete White hat methods to improve the sites performance..

joe: oh right, isn't "white hat methods" mean things that are good in nature?

Expert: Yes..

joe: and a dark color mean bad things?

Expert: they are the ones that are the best..

Expert: you got it right...

joe: ok an article I remember reading, it seemed like the tone was white was good but didn't really get results for people. where dark seemed to get people where they wanted with a little risk involved. Do you guys do anything that might be in between? I know when we do our taxes, we try to work in the "grey area" to save money. Is there this with relation to search results?

Expert: Yes there is..

Expert: We work in the guidelines of white hat with the mixture of other methods where applicable... at the same time we ensure that no harm is done to the site..

joe: that's positive. what kind of price range would you guys charge for the whole shebang?

Expert: The choice would be yours... It depends on how much you wish to invest for promoting your site and getting continuous results... We have two different packages..

Expert: One is Part Time at a cost of \$295 + \$15 (processing and transaction fee).. this package gives you 80 hours... Expert will promote your site for 80 complete hours... and the other is Full Time at a cost of \$595 + \$25 (processing and transaction fee) this package gives you 180 hours... Expert will promote your site for 180 complete hours...

joe: ok, i'm confused on one part. You say "Expert will ... ". What does that mean?

joe: is that a software or something?

Expert: You hire an Expert when you pay for the subscription..

Expert: it is a person workin for you...

joe: oh oh oh, gotcha

Expert: I have a team of Experts that are available for hiring..

Expert: Cool...

joe: how's the weather over there?

Expert: Cold...

Expert: but not as cold as it would be over there..

joe: yeah, it's cold. some parts are warm though.

Expert: Can I have a look at your website...

Expert: the one that you wish to promote..

joe: one additional question. do you guys offer any sort of blog commenting service? I've heard this is an effective way to get traffic.

Expert: We provide a total SEO solution... this means that we offer... Blog commenting, Forum Commenting, MySpace, Directory Submissions, Social Bookmarking, Article Submissions, Affiliate Marketing and many such tactics..

joe: awesome. thanks for the time and you'll be hearing from us at least by the end of next week.
